MUN / Youth Parliament Website with Razorpay Integration

Semester	4th Semester, CSE
College	Maharaja Surajmal Institute of Technology
Mentor	Mayank Yadav (9310743381)
Deadline	27 July 2026

Project Overview

Develop an event platform for Model United Nations and Youth Parliament activities with registration, committee allocation, payments, and certificate workflows in one streamlined application.

Project Objective

- Digitize registrations and fee collection for MUN / Youth Parliament events.
- Support committee and agenda selection with secure participant handling.
- Provide organizers with a clear operational dashboard from registration to certificate issuance.

Core Features

- Event landing page and registration portal
- Committee / agenda selection and delegate allotment
- Razorpay payment integration with payment verification
- QR ticket generation and check-in flow
- Certificate generation after attendance / participation validation
- Admin dashboard for participant management, approvals, and reports

Suggested Tech Stack

React, Node.js, Express.js, MongoDB, JWT, Razorpay, QR code library, PDF certificate generation

Recommended Data Models

Event, Participant, Committee, Payment, Ticket, Certificate, Attendance

Useful API Coverage

Create Event, Register Participant, Initiate Payment, Verify Payment, Allocate Committee, Generate QR Ticket, Mark Attendance, Issue Certificate

Suggested 6-Week Milestone Plan

- Week 1: event structure, UI, and authentication
- Week 2: registration forms and committee data model
- Week 3: Razorpay payment gateway integration
- Week 4: ticketing, QR generation, and admin controls
- Week 5: certificate generation and validation rules
- Week 6: deployment, documentation, and final showcase

Acceptance Criteria

- Payment flow works end-to-end with order creation and verification
- User data is stored securely and can be reviewed by the admin
- QR ticket and certificate outputs are downloadable
- Project is ready for a real event pilot

Final Deliverables

- Source code repository (GitHub or equivalent)
- Live deployment link
- README with setup instructions and feature explanation
- Database schema / collection design
- Screenshots of key screens and workflows
- Short demo video for presentation review

Submission Note

All features, documentation, and deployment tasks must be completed on or before 25 July 2026 and mailed at support@gridixa.in with report.
